Social Media Strategist

Jan 2025 – Jun 2025

Connect Services Liberia, Monrovia

- Created and managed social media campaigns to promote brand awareness and customer engagement, resulting in a significant increase in follower count and customer interaction.

University Lecturer

Feb 2025 – Present

University of Liberia, Monrovia

- Evaluate and assess student performance through examinations, projects, and presentations to ensure comprehension of course materials.
- Develop and deliver engaging lectures on software engineering topics, integrating practical applications that relate to the current industry trends and technologies.

Internships

Student, Software Engineer

Jul 2023 – Jan 2024

Hasan Bilgehan, Magusa, North Cyprus

- Collaborated with a team of four to design and develop an e-commerce application intended to function as a comprehensive online marketplace. The app was designed to offer a wide range of products, including food and beverages, clothing, groceries, and appliances.
- Utilized HTML, Figma, C#, JavaScript, MySQL to enhance functionality and user engagement.

Educational Volunteer

Sep 2016 – Oct 2016

IYAN Africa, Accra, Ghana

- Collaborated with an international NGO on an educational project aimed at supporting women and children in rural Ghana. We conducted workshops for women on safe sex practices, as well as soap and candle making for income generation. Additionally, we distributed school supplies to the children and organized a day of games and spelling competitions to promote education and engagement.
- I worked at the City of Hope orphanage five days a week, providing math tutoring to the children.

Part-time Cashier and Full-time assistant

Jul 2012 – Sep 2012

Fedex Liberia, Monrovia, Liberia

Handled administrative responsibilities such as organizing paperwork, making photocopies, and running errands. Also covered cashier duties for one month during the incumbent's maternity leave."

Assistant
